Your client's annual wellness visit

The annual wellness visit (AWV) is important for your client. It's an appointment that's all about them. Their doctor will talk about how to keep them well, and they'll work with your client to create a care plan.

What happens at your client's annual wellness visit?

Set health goals

Go over how their medicines are working

Talk about any changes in thinking and day-to-day life

Look at health tests or screenings they may need

A yearly visit helps the doctor see changes in your client's health. And it's at no cost to them.

What can you do to help your client?

Once you enroll your client, the next step is to help them get their AWV scheduled. To do this, please call the broker priority scheduling line at the number below.
